**NewStart Keygen For Windows**

**DOWNLOAD**

NewStart is a free and easy to use start button remover for Windows XP. NewStart is free to use and easy to use. Just install the Uxtheme Multi-Patcher and your customized start button will appear. The right click menu of your start button can now be removed if you have the Uxtheme Multi-Patcher installed. Removing the start button will cause Windows XP to appear completely different. The window frame is no longer green but blue and the toolbar and icons are now blue. Windows XP will still work. However, the custom start button and the WindowsXP start menu will be removed. If you're not satisfied, you can add the green start button back. You can now choose between the Windows XP and Windows 7 theme to get the classic look back.

**NewStart Installation** NewStart is compatible with Windows XP, Windows Vista, Windows 7, Windows 8

and Windows 8.1. It supports all the common languages and is available in a variety of languages. Installation Just install the Uxtheme Multi-Patcher first. After you have installed the Uxtheme Multi-Patcher, it will ask you whether you want to replace the WindowsXP's default start button or not. This is how the screenshot looks like. Once you have clicked yes, the Uxtheme Multi-Patcher will start working. We chose to remove the start button and added a green start button, which is now blue. To remove the start button, you will be asked for your administrative password to sign in as an administrator. Now click yes to allow the Uxtheme Multi-Patcher to proceed with its work. The Uxtheme Multi-Patcher will now ask you to install or activate the package. If you have done so, then click on install. If you are installing the package for the first time, then activate the package first. Once installed, the Uxtheme Multi-Patcher will show up as a start button theme in the list of themes. Just add the start button theme, click on
