
Xbox 360 Boot Disk V2.4

!!TOP!!

Note. The original Xbox One console may require an additional update... Please note that formatting the USB flash drive for this procedure will delete all files on it. If you need to save a data file, such as a backup copy, then the USB drive should be formatted in the usual way in the FAT32.1 file system before formatting. Open the Memory tab. 2. Go to the "Memory Disk" tab and click the "Format" button. 3. In the Format Memory Disk window, click Continue. 4. In the Format Memory Disk window, click the Start button. 5. In the Format Memory Disk window, click the Start button. 6.
