This book focuses on the use of Photoshop for the beginner, but I mention some expert-level techniques as

---

well. Photoshop Elements  
Photoshop Elements is a free  
and easy-to-use digital  
imaging program from  
Adobe that includes some of  
the basic editing tools  
available in Photoshop, plus  
some new features, including  
the ability to create videos  
using sequences of pictures.  
This book is not intended as a

---

guide to Photoshop Elements; instead, I intend to provide a guide to Photoshop as much as possible for the beginner and to provide techniques for working with a variety of images. However, I mention a number of Photoshop Elements features where needed. Tiffen.com I use the color-matching facility at my

---

friend Duncan Williams'  
excellent online color  
analysis site at  
`www.tiffen.com`. I use this  
site all the time when I am  
wondering how I should  
process a photo. Duncan's  
site is the best there is — and  
it is free! Using a digital  
camera You can also use a  
digital camera to make

---

simple adjustments to an image. Most new digital cameras allow you to view your images on a monitor screen, which makes manipulating them much easier. Choose your camera

When you buy a digital camera, look for a camera with a good viewfinder. The viewfinder makes it easy to

---

see exactly where you are aiming when you shoot an image — and it enables you to frame the image without having to view it on the camera's LCD screen. If you can afford it, a full-featured, higher-end camera is the way to go — and not just because you are able to see an image on the camera's LCD. By

---

"full-featured," I mean a camera with a viewfinder that displays a true-color preview of what your image will look like. These high-end cameras allow you to shoot in a variety of formats, like RAW, which allows you more control later if you decide to edit your image. Setting a good manual-

---

exposure mode A great place to start your photography is by setting your camera to a manual-exposure mode to control the brightness in your image. To set a manual-exposure mode, either dial the manual-exposure mode on the camera or press the shutter button halfway and turn the mirror up. (Refer to

---

Figure 1-1, where you can see how to do this.) This disables the automatic-exposure auto-focus

Grace Griffitts is the youngest of the three siblings. She is 24 years old, and she is a nationally known Vocal Artist. She is also a recording artist with a number of different labels including: Mystic Records, Trance Amusements, and her

---

own Honeybee imprint, in addition to numerous others. She has recorded two full length CDs at the Stratford Film Unit, and has been featured on two CDs - "In Doubt of Sky" and "Dreams of Trees". "Spiritual Christmas" is her first Spirit album. Grace Griffitts' music is a blend of many styles:

---

Jazz, trance, world, ethnic, kalimba, etc. We focus on the element of her music that is new, yet felt in the title song. We describe this style as West African or Latin American R&B. The 12" single will include remixes by Kiki Sone and Eif Rivera, both from the Latin American world of Afro-

---

Caribbean culture. The B-Side, "My Heart Is Not" is also a new composition. It has a minor key, as does the entire album, and it features a Kalimba solo. These songs will be recorded in a similar style to her album, "Dreams of Trees", and will be mixed to be released this fall. We are excited to be working

---

with Grace Griffitts, and we hope to record your album too. To order your copy of this album for \$9.50, or \$12.50 for both, mail to: A four-judge bench at the Supreme Court of India (SCI) on Friday ruled that an order by the country's most influential court-led investigation agency into the

---

fraudulent allotment of land to a dead man's kin is to be reviewed and revised, paving the way for the return of the allotment. The land case arose from an ongoing court case in the Supreme Court dealing with the botched land allotment that allegedly led to the death of an 11-year-old boy in 2010. Last year, a

---

bench led by Justice Arun Mishra, a former RSS volunteer, ordered that a Special Investigation Team (SIT) of the Central Bureau of Investigation (CBI) be set up to investigate allegations of corruption in the allotment process, and that a report be submitted by the agency in the next three months. ## Young Kids Hurt in Ball Aerospace Shooting at Space Flight Museum

PICKERINGTON, Ohio - A  
young couple visiting the  
Mars-themed Space Flight

---

Museum in the southeastern Ohio town of Pickerington was shot and injured Thursday night, leaving them both "unconscious" in the early hours of Friday, police said. "They're both fine," pickerington police Chief Mike Mierzwinski told reporters. "One is a woman, one is a man, 19-year-old

---

woman and 16-year-old boy. Both were shot. They were both shot in the legs but not in any serious area." Police said in a statement posted to Facebook they were not looking for suspects but the incident remained under investigation. Mierzwinski said all those who were there at the time are "fine." "We

---

were in [the] shooting gallery there and they were coming up to the museum and then suddenly they said something happened, they were shot, they were talking a little bit on the way over. But it was obviously very traumatic for them." Pickerington Mayor John Kitchen said it was unclear why someone would

---

shoot the couple. "It could be anything. It could be anything. It could be someone getting kicked out," Kitchen told the Columbus Dispatch. The shooting happened at about 5:15 p.m. and the couple were able to walk from the shooting scene to the pickerington-area police department, about a

---

block away. Mierzwinski said the couple was a good distance away when they heard the gunshots. "They told me she's pretty shaken up and she's pretty much in shock," Mierzwinski said. "And he's a little bit shaken up because it's their first time going in that facility. So that's pretty much it."

---

Mierzwinski said the couple has not been able to provide any other details. "They can't recall what the suspect looked like, what they were wearing, they can't give us any other details. But for sure, they do remember coming inside. Once inside, they were here for a while," Mierzwinski said. The

---

museum, which is part of the National Air and Space Museum, said on its website that it was closed because of the shooting. "The National Air and Space Museum is saddened to announce that an incident occurred while the Museum was open on Thursday evening,"
