Oct 25, 2008 . The license number of this application is serial nr. 0979021. Try to contact this address more than three times, and you will soon be banned. 0 USBs serial cable download) And we can hook up the USB serial cable to the Windows device to find and retrieve the device serial number. How to Find the New Device Serial Number. Listing 2 shows the command used to find the serial number of an actual hard disk connected to a Windows 7 or Windows 8 PC. The results are displayed in the lower pane of the Output window. Note: A single quote character is represented by """, a double quote character is represented by """", and a single apostrophe (') character is represented by '''. Windows 7 Setup - Device Driver Uninstallation Using the Command Line If you plan to connect the device's USB port to the computer, you can use the command line to obtain the serial number. If you plan to connect the device to your computer via a serial adapter, you can use the device manager to obtain the serial number. Windows 7 Setup - Device Driver Uninstallation 1. Identify the USB port to which the device is connected Type "diskmgmt.msc" in Start Search, and then press Enter to start the Device Manager. Step 3: View the serial number information of the device Double-click the device whose serial number you want to view. The serial number of the device is displayed in the Device Manager. You can select the field "Hardware Ids and Devices" to check the serial number. You can also copy the serial number to the clipboard. Note: The serial number displayed in the Device Manager is the device's Microsoft Windows device name. This device name is the same as the name of the device that is associated with the device's driver. For example, if you connect a USB flash drive to your computer, the device name for the attached USB flash drive might be "USB Flash Drive". If you connect a USB flash drive to your computer, the serial number that you find through the Device Manager is the serial number of the attached USB flash drive. Using a USB Serial Adapter If the device is not connected to the computer via a USB port, you can use an USB serial adapter to obtain the serial number. 1. Connect the USB serial adapter to the computer and launch it.
