No words. No graphics. Because these characters are not supposed to speak, we keep the text to a minimum to not distract from the fun. Full Review: Storyline: Assignment comes as a huge surprise. Superheroes are in big danger, everyone has to help. You as Superhero decided to grab some Holiday and help out your fellow heroines in the fight against the evil Alien Overlord. Gameplay: The game is quite easy to understand. Just make as many choices as you can. There are three different endings, depending on your choices. A funny story line and story based characters will make this game a real pleasure to play. Graphics: The game is partially comic book inspired, but not to the point where the stylistic character is destroyed. Therefore, it

doesn't really matter that it is mostly game style graphics. Sound: The music is quite good. The sound effects you hear during the game are also fairly good. Replay Value: The characters are not very long, but the game is very addictive. Probably the best of all Game Girl series games. Overall: A bit different than other games in the Game Girl series, but in the end this game is great fun to play. Heroine Capture - Cheerleader Heroines - New Assignments To be a hero, you need not only power, strength, and super-speed, you need to have tact and some skill too. A Space Shooter, Project: Colonies: MARS 2120 has 6 weapons and 9 levels, divided into 3 sections: Mission, Flight and Endgame. In addition to the standard Space Shooter gameplay, this Game has elements of Platform-Puzzle, Strategy, Combat, Action, and Survival. The game has 3 Difficulty settings, Normal, Hard and Insane. Normal and Insane difficulty levels offer very fast paced gameplay with large damage taken by the player. This Game has 3 modes, Survival, Attack and Defense. In Survival mode, the player gets the first life when he or she gets shot, the second life is earned when a certain amount of distance has been covered by the player from a line of enemies, and the third life is earned by completing the first level without a single shot being fired at the player. The player can play any number of levels at once, and must switch levels in between rounds. The player can exit the game at anytime, to progress or play a new level. Gameplay [edit] Each level is a maze

with the purpose of the player taking off, shooting down enemies with a variety of weapons, and navigating the maze, while not bumping into walls and traversing the levels at a steady pace, in order to reach the exit. The player must avoid going into the wall of enemies while searching for the exit. This is because if the player gets shot by an enemy, the player will lose the current life he or she has earned, and will have to start over. The player gets the next life when the level has been reached. This Game has 3 Difficulty settings, Normal, Hard and Insane.
