"Beyond the Slum" is a game production by PlatinumGames Inc. in collaboration with Kadokawa Games and CyberConnect2. The game is developed based on a new fantasy action RPG world which we have been creating through our previous projects of "Shinovi Versus", "Guilty Gear Xrd", "God Eater 2", and "D4." The game will feature a story that intersects with "Hollow Reve", a mysterious fantasy action RPG game developed by PlatinumGames Inc., that our fans have waited for since the end of "D4." "Beyond the Slum" will allow players to enjoy an experience that is also breathtaking and relaxing while playing the game, and players are also looking forward to experiencing various unique and original features in the game.
