Â· PC Games, PS Games, XBOX Games, Nintendo Wii Games. Radio Wave Mp3 Free Download. Whether you like radio on your computer, or on your phone, your music is within reach.Â .Q: Selecting first time the post then not selected in jquery I have a scenario where if users log-in to my page for the first time they will have a 'tick' image, if they login the second time they will not have the tick. This is the code to select the tick. var first = jQuery('.first-tick'); if (first.length == 0){ jQuery('').appendTo('body'); first = jQuery('.first-tick'); } What I need to know is how to select the first-tick div that has the first tick and the second tick that does not have the first tick. Here is a fiddle: This is my mark-up: Users
